YÖNETİM

1965 yılından beri Soğutma alanında hizmet vermekte olmanın tarifsiz mutluluğu içindeyiz. Elbette ki bu kadar uzun süredir sektörde olmamız tesadüfi değildir. 55 yılın deneyimi ve bilgi birikimini, çağımızın gereklilikleri ile birleştirip daha etkin ve kurumsal bir strateji yaratmaya çalışıyoruz.

Tasarımlarımızda minimum enerji tüketimi sağlayan, çevreyle dost, yenilikçi produktlere yer vermenin yanı sıra, müşteri bekenti ve ihtiyaçlarını öngörebilme adına uygun hizmet ve çözümler geliştirme anlayışındayız.

Teknolojinin ve iletişim araçlarının hızla değişmesi ve gelişmesi ile birlikte 2020 yılı itibarı ile Dış Ticaret anlamında da hedefimiz yeni pazarlar yaratmak, mevcut bayilerimize yeni kurumsal anlayışımız ile hizmet vermeye devam etmek, pazar payımızı artırmaktır. Halihazırda 30'dan fazla ülkede varlığımızı koruyup dünya şirketi olmak maksadıyla ileri teknolojinin ışığında çalışmaya devam edeceğiz.

We are proud of serving in cooling industry since 1965. It is not surprising that we have been operating in this sector so far. We are bringing together the experience of 55 years and the needs of our age to create a much more effective and institutional strategy.

Besides; we use the energy providing the lowest consumption, environment friendly, innovative products, our approach is to improve and create suitable solutions and services for our customers' expectations and needs.

With the rapid change and growth in technology and communication instruments, our main duty is to operate in various markets, to continue serving our vendors with our new institutional approach and raise our market share. Currently, we will keep our presence in more than 30 countries, to be a global brand and make the most of technological opportunities.

Nurdil Refrigeration Company was established in 1965 by our honorary president Mr Nurettin DILBER as a refrigeration maintenance and repair company in Ankara.

Nurdil Teknik Soğutma A.Ş. 1965 yılında, firmamızın onursal başkanı Nurettin DILBER tarafından kurulmuştur. Sonraki yıllarda Ankara ve civarında buzdolabı servis ve bakım hizmetleri veren bir işletme olarak faaliyet gösterirken, firmamız devam eden yıllarda ağırlıklı olarak iç Anadolu Bölgesinde bakkal, pastane, lokanta ve kasap tipi buzdolaplarının satış ve bakım işlemlerini de gerçekleştirmeye başlamıştır.

Nurdil Teknik Sogutma A.S was established in 1965 by our honorary president Mr Nurettin DILBER as a refrigeration maintenance and repair company in Ankara. In later years our company commenced trading in the sale and after sales services of refrigerators to small shops, restaurants and butchers primarily in the Anatolian region.

Ana Fabrika | Main Factory

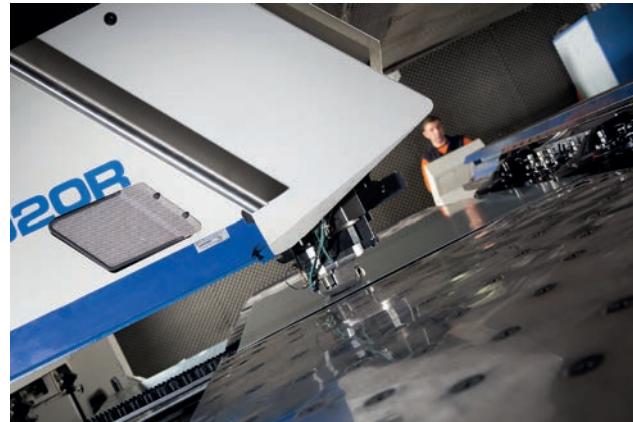

Our company continues to export products to over 30 countries and contributes to the national economy.

1991 yılında Ankara-Sincan 1.Organize Sanayi Bölgesindeki tesislerine geçmiştir. Firmamız bu tarihten itibaren CNC kontrollü makineleriyle günümüz kalitesine uygun olarak üretim yapmakta ve ülkemizin birçok yerel ve ulusal süpermarket zincirine yüksek kalitedeki ürünleriyle hizmet vermektedir. Bununla birlikte üretiminin yarısını yurt外i pazarına sunan firmamız, diğer yarısı ile de halen 30'un üzerinde ülkeye ihracat gerçekleştirerek ülkemiz ekonomisine katkıda bulunmaktadır.

In 1991 we moved our facilities to Sincan Organized Industrial Zone in Ankara, where we continue to provide high quality in manufacturing with our wide range of CNC controlled machines, to our local and national supermarket chain customer base. Supplying the national market with half the production capacity and international market with the other half, our company continues to export products to over 30 countries and contributes to the national economy.

Geçmiş geleceğin teminatıdır ve Nurdil 1965'den bu yana başarılarını taçlandıarak yoluna devam edebilmiş sayılı şirketlerden biri olmayı başarmıştır. Hayatta değişmeyen tek şeyin "değişim" olduğu bilinciyle, ileri teknoloji, nitelikli işgücü ve Ar-GE faaliyetleriyle sektörde fark yaratmak için çalışmalarına devam etmektedir.

The past is an indicator of what's coming next. And Nurdil has managed to be one of the rare companies who has preceded its path with an accelerating success since the year 1965. Being aware of the fact that the only thing that does not change is "change" itself, Nurdil is continuing its operations in order to create distinctness in the sector thanks to advanced technology, qualified labor force, R&D and innovation.

**70.000 m² kapalı
alanı ve 450 çalışanı
ile teknolojik
gelişmeleri yakından
takip ediyoruz...**

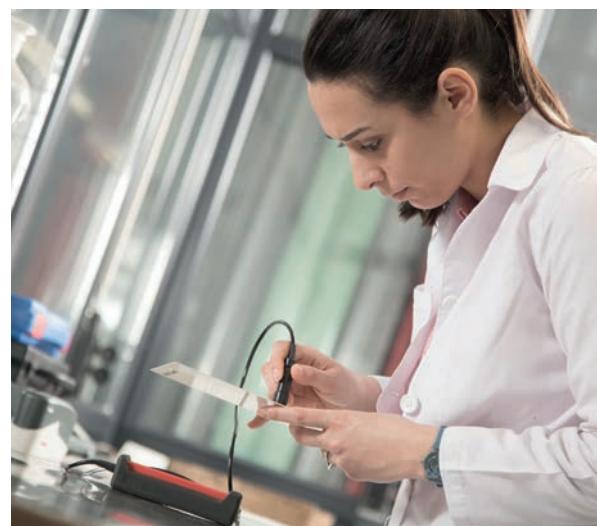

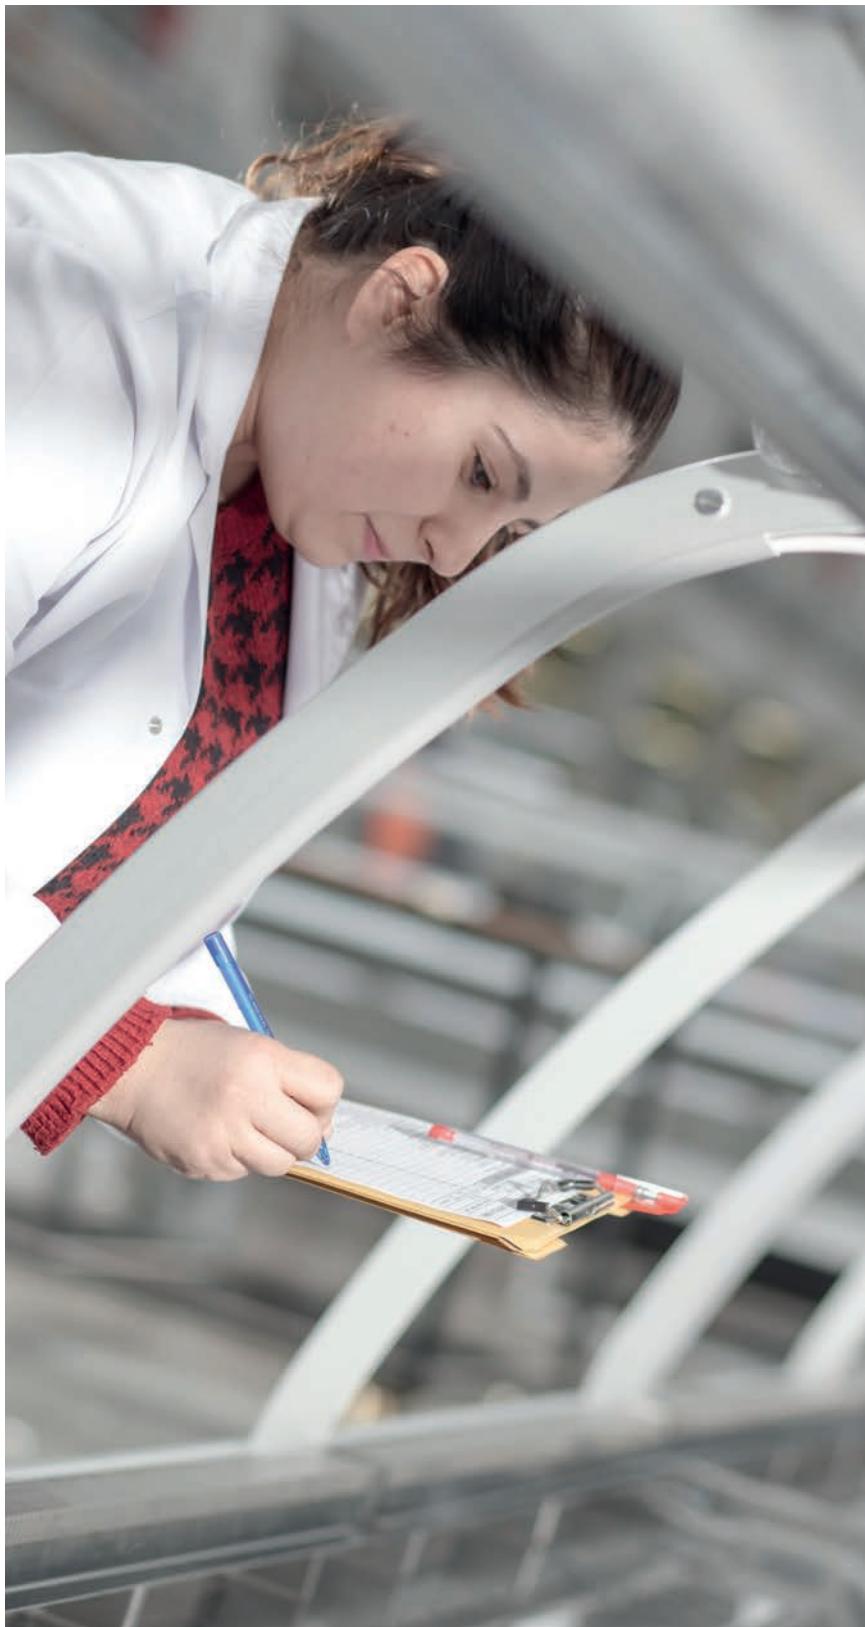

70,000 m² covered area and 450 employees,
we continue to follow technological developments in
the industry and new technologies in the production
process to make improvements.

Değişen ve gelişen kalite anlayışımız ile müşteri bilgilendirilmesi ve memnuniyetini her zaman ön planda tutan şirketimiz, sektöründeki gelişmeleri ve teknolojiyide yakından takip ederek yolunda emin adımlarla ilerlemektedir.

Improving our understanding of quality and customer satisfaction is always at the forefront of our company, we closely follow technological developments in the sector and take strides in the path of advancement.

Tüm dünyada çok geç kalınmasına rağmen, ancak son yıllarda önemsenmeye başlanmış olan çevre duyarlılığı konusunda şirketimiz üzerine düşen her görevi ve her sorumluluğu yerine getirmeye özen göstermektedir.

Although globally it is a little late, in recent years environmental awareness is of great importance and our company takes great care to fulfill its responsibility and tasks in this respect.

İleri Üretim Teknikleri ve Geleceğe Yatırım

Advanced Production Technology, Investing in the Future

Giriş kalite kontrolünden, çıkış kalite kontrolü ve saha kurulum aşamalarına kadar Nurdil güvencesi altındasınız. En önemli özelliklerimizden biri üst düzeyde geriye dönük izlenebilirlik, sürekli analiz ve gelişmeye açık alt yapımızdır. Dijital sanayi devriminin eşiğinde olmanın farkındalığıyla, sektördeki ilk Dijital Endüstriyel Soğutma Sistemleri İmalatı Fabrikası olma yolunda büyük adımlar attık.

You are under the guarantee of Nurdil from input quality control to output quality control. One of our most significant characteristics is highest level traceability, continuous analysis and our infrastructure which is suitable for development. We've been stepping forward to becoming the first production plant of Digital Industrial Cooling Systems, with an awareness of the fact that we're close to the dawn of Digital Industry Revolution.
